XVII —Vaccination Return for the year 1865-66.

BENGAL SECRETARIAT LIBRARY

REPORT

ON THE

ADMINISTRATION

OF THE

HYDERABAD ASSIGNED DISTRICTS

FOR 1865-66.

SECTION I.—JUDICIAL.

PART 1.—CIVIL JUSTICE.

Preliminary

2. The re-distribution of the Hyderabad Assigned Districts took place so near the end of 1864, that 1865 may be considered the first year that had the benefit of the increased administrative agency.

Establishment of four new Civil Courts.

3. With their immense Talooks, it was impossible for the Tehsildars to dispose of the very great number of Civil cases brought before their Courts, and the result was that, at the end of 1864, the undecided cases amounted to 1,789. To remedy this most unsatisfactory state of affairs, four Courts were established in the two larger districts presided over by Extra Assistant Commissioners appointed in excess of the former Establishment. The attention of these Officers is devoted exclusively to the work of their Civil Courts, and they have entirely relieved the Tehsildars of the two larger and more populous districts from all Civil work. The measure has been eminently successful. Not only have all the old cases been disposed of, but the same is the case with the new ones, and in reality, there are now no arrears.

New Civil Courts when established.

4. Two of the new Courts were established in January and two in April, so that during the first part of the year, some of the Tehsildars continued to dispose of Civil suits.

Civil work in Southern Districts performed by Tehsildars.

5. In the Southern Districts, where there is little litigation, the appointment of purely Judicial Officers was unnecessary, and the Tehsildars have still jurisdiction in cases not exceeding in value Rs. 300, which is also the limit that has been assigned to the Judicial

Extra Assistants.

Number and Jurisdiction of Civil Courts

6. The [illegible] jurisdiction of the Civil Courts were [illegible]

Districts	Area in square miles.	Deputy Commissioners.	Europeans. Assistant Commissioners.	Europeans. Extra Assistant Commissioners.	Natives. Extra Assistant Commissioners	Natives. Judicial Extra Assistant Commissioners	Tehsildars	Remarks.

Extra Assistant Commissioners	1	,, 1,000 ditto
Judicial Extra Assistant Commissioners ..	4	,, 300 ditto
Tehsildars ...	15	,, 300 ditto

Two Extra Assistant Commissioners were employed exclusively in Enam enquiries and have not been included above

Number of cases on the file

7. At the close of 1864, 1,789 original suits were pending, and during the year under report, 6,658 were filed, being 1,459 less than the number instituted in 1864. This reduction is exclusively in the petty Courts, and is accounted for by the Courts of four Judicial Extra Assistants having been substituted for those of ten Tehsildars. A number of the people were therefore not in quite such close proximity to a Civil Court as formerly, and preferred settling their small disputes among themselves to going to law about them. This check upon petty litigation appears to the Commissioner to be an advantage rather than the contrary. The litigation in the superior Courts has increased.

New Suits Filed.

Courts	Oomrawuttee	Akolah	Mehkur	Woon	Total

4 Judicial Extra Asst Commissioners	91	72	.	
15 Tehsildars	48	107	80	54

Average duration of suits

11. The average duration of suits in the District Courts is shown in the margin.

Cause of long duration of suits

12. The duration is a great deal too long, but the Judicial Extra Assistants have not had fair play in the matter. Their files were burdened at first by large numbers of old cases, and no judgment could be formed of the rapidity with which their Civil suits were decided till the arrears were cleared off The average duration of suits in the last quarter of 1865 was 59 days, and it will be less in 1866.

Work performed by Judicial Extra Assistant Commissioners.

13. Great pressure has been put upon the Extra Assistants to clear their files with rapidity. Each of them has on an average decided 1,339 cases, and to have got through this amount of work must have involved the most unremitting labor. More can scarcely be expected from them, except at the risk of sacrificing justice to rapidity.

*14. On the Comm[illegible] there were 49 appeals, 15 of the[illegible] from 1864. The Deputy Commissioners' decisions were reversed in 11, and confirmed in 29 cases. One was settled by razeenamah, two dismissed for default, and one returned for re-investigation, leaving at the end of the year five cases undisposed of.

Commissioner's Court of Appeal.

15. The value of property under litigation was Rs. 1,29,241-12-11, and the costs, Rs. 20,612-10-9, or Rs. 15-15-2 per cent.

Value of property litigated in ditto.

16. The average value of each suit, excluding those above Rs. 5,000, was Rs. 864-5-3, and the average costs, Rs. 196-12-7.

Average value of suits in ditto.

17. The average duration of each case was 206 days. This is a very great deal too long, but the multifarious duties falling on the Commissioner often leave but little time for hearing Civil appeals.

Average duration in ditto.

18. In the District Appeal Courts 223 cases were pending at the close of 1864, and 843 were instituted during the year under report, making a total of 1,066.

Number of appeals in District Appeal Courts.

Deputy Commissioners Courts	Oomrawuttee	Akolah	Mehkur	Woon	Total.
Remaining on the 1st January 1865	81	129	..	13	223
Filed during the year ..	330	392	64	57	843
Total .	411	521	64	70	1,066

19. Of these, 781 were decided on their merits, the orders of the Lower Courts having been confirmed in 510, and reversed in 271 cases. Of the remainder, 15 were amicably adjusted, 12 dismissed for default, 7 withdrawn, 102 remanded for re-investigation, and 16 transferred, leaving at the close of the year 133 cases undisposed of.

Number decided

Courts	Decided during the year: On their merits	Decided during the year: By Razeenamah	Returned for re-investigation.	Withdrawn	Dismissed for default	Transferred	Remaining

Total ...	781	15	102	7	12	16*	133

* 15 transferred to Mehkur District and one to Oomrawuttee

20. The work in the Akola [illegible] been heavier than in any of the other [illegible] the Deputy Commissioner decided [illegible] appeals on their merits, this was not sufficient to prevent the accumulation of arrears. The working of the Oomrawuttee Court has been very satisfactory. The Deputy Commissioner decided 327 cases on their merits, and the 32 cases pending were nearly all filed in December. There are therefore really no arrears in this Court, nor are there any in those at Mehkur and Woon.

Arrears in District Appellate Courts

21. The work of the old Appellate Courts has increased, notwithstanding that two new Courts have been established at Mehkur and Woon. In 1864, 603 appeals were filed in the whole of the Assigned Districts. In 1865, those filed in the Oomrawuttee and Akolah Courts alone amounted to 722.

Work increased in the old Appellate Courts

22. The value of property litigated was Rs 2,10,390-13, and the cost of litigation, Rs. 18,103-10-1, or Rs. 8-9-8 per cent.

Value of property litigated

Districts	Value of Property litigated	Average Value of a Suit
Oomrawuttee	1,10,308 15 4	334 4 4
Akolah	80,580 13 8	218 15 6

Total 1865...	40	450	490	465	25

27. Only 12 appeals were presented to me during the year, of a total value of 1,20,213. Of these, seven were summarily rejected on account of informality or the period having expired, in four, the decision of the Lower Court was confirmed, and one was remanded for further enquiry.

Appeals to Resident's Court.

28. On the whole, there is a decided improvement over the preceding year in the Department of Civil Justice.

Improvement in Civil Justice.

SECTION I.

Part II.—Criminal Justice.

29. The terrible increase in Dacoities in 1864 was a lamentable feature in the history of that year, and the criminal classes were clearly gaining the upper-hand over the police. The re-organization of the police, the measures taken against the professional plunderers who flocked into Berar from the North,

Preamble.

the introduction of the Arms Act, [redacted] istribution of the Districts, have had the effect of reducing gr[illegible] ount of violent crime.

Number of Dacoities.

30. In 1864, there were 197 dacoities, and in 1865, thirty-five.

Statistics of crime reported on by Inspector General of Police.

32. As the statistics of crime have been fully reported on by the Inspector General of Police, it will only be necessary here to notice the proceedings of the several Criminal Courts.

Number of Criminal Courts and their Jurisdiction

33. The number and jurisdiction of the Criminal Courts were as follows:—

No. of Courts.	*Jurisdiction.*
1 Commissioner's Court.	Death—(subject to confirmation by the Sudder Court), transportation, imprisonment of either description for a period not exceeding 14 years, including such solitary confinement as is authorized by law, or fine to an unlimited amount, or both transportation and fine, or imprisonment and fine, &c.
4 Deputy Commissioners' Courts under Act XV of 1862	Imprisonment of either description for a term not exceeding 7 years, including such solitary confinement as is authorized by law, or fine or both.

* These Districts were established in this year

No.	Courts.	Jurisdiction.
4	Deputy Commissioners' Courts exercising full Magisterial powers.	Imprisonment of either description not exceeding the term of two years, including solitary confinement, or fine to the extent of Rs. 2,000, or both imprisonment and fine.
9	Assistant Commissioners' Courts exercising full Magisterial powers.	As above.
2	Assistant Commissioners' Courts exercising powers of a Sub-Magistrate, 1st Class	Imprisonment of either description for a term not exceeding six months, or fine not exceeding Rs. 200, or both imprisonment and fine.
2	Extra Assistant Commissioners' Courts exercising full Magisterial powers.	Imprisonment of either description for a term not exceeding two years, including solitary confinement, or fine to the extent of Rs. 2,000, or both imprisonment and fine.
1	Extra Assistant Commissioner's Court exercising powers of a Sub-Magistrate, 1st Class	Imprisonment of either description for a term not exceeding six months, or fine not exceeding Rs. 200, or both imprisonment and fine.
1	Judicial Extra Assistant Commissioner's Court exercising powers of a Sub-Magistrate, 1st Class.	Only authorized to try cases under Section XXXIV of the Police Act, and to exercise the powers specified in Chapter X of the Criminal Procedure Code.
17	Tehsildars' Courts exercising powers of a Sub-Magistrate, 2nd Class.	Imprisonment of either description not exceeding one month, or fine not exceeding Rs. 50, or both imprisonment and fine.

Results of Criminal Trials.

34. The following Tables show the results of the trials in the various Courts.—

17 Tehsildars Courts	...	2,587
TOTAL ...		4,478

Number of Criminal Appeals instituted

37 Sixty-nine Criminal Appeals were instituted in the Commissioner's Court during the year under report. The decisions of the Lower Courts were reversed in 36, and confirmed in 32 cases, and in one case the decision was modified.

Appeals in the Deputy Commissioners' Courts.

38. Forty-five Appeals were decided by the Deputy Commissioners, of which 22 were confirmed and 23 reversed.

39. Eleven Criminal Appeals were tried by me during the year; of these, three were summarily rejected, and in one the order of the Lower Court was reversed.

Duration of Trials.

40. The average duration of trials is shown below :—

	Days
1 Commissioner's Court	9
4 Deputy Commissioners' Courts	5
11 Assistant Commissioners' Courts	4
3 Extra Assistant Commissioners' Courts	5
1 Judicial Extra Assistant Commissioner's Court ...	2

Detention of witnesses

42. Of 11,863 witnesses summoned before the Criminal Courts, nearly 15 per cent. are shown to have been detained for more than one day, still too great a proportion though considerably less than in the preceding year. Delay is especially notable in Oomrawuttee and Woon.

	Oomrawuttee		Akolah		Mehkur		Woon		Total

* Five for life, 7 for ten years, and 3 for seven years by Deputy Commissioners under Act XV of 1862.

SECTION I.

PART III.—POLICE.

Decrease of Crime shown from the Returns.

43. The Returns show a considerable decrease of crime, as compared with the year 1864, viz.:—

Total of all offences in 1864 ...	...	5,407
Ditto ditto in 1865 ...	...	4,211
Decrease	...	1,196

The decrease would appear large, but for the extension of Section 34 of the Police Act to Towns in Berar

44. The offences (4,211) committed in 1865 include 591 under the Police Act, whereas in 1864 only 70 offences under that Act were registered. This is accounted for chiefly by Section 34 of the Act (V of 1861) having in 1865 been made applicable to many of the chief towns in Berar.

Great decrease in Dacoity and Robbery.

45. The offences which have of late years caused the most trouble in Berar are dacoities and robberies.

The following Comparative Statement will show that a great check has been given to the commission of these crimes :—

Offence	1864	1865.
Dacoity	205	37
Robbery	225	62
Total ..	430	99

Dacoities therefore decreased 82 per cent , and robberies 72 per cent.

Decrease also in murders

46. Murders have also decreased.

Offence	1864	1865
Murder with dacoity	7	2
Ditto of other kinds	24	20
Attempts at murder	18	11
Total .	49	33

Decrease in culpable homicide.

47. Culpable homicide has decreased from seven in 1864 to two in 1865.

Decrease in house-breaking and house-trespass.

48. House-breaking and house-trespass of all kinds, by day and night, have fallen from 889 in 1864 to 577 in 1865.

Decrease in thefts.

49. Thefts of all kinds have decreased from 1,536 in 1864 to 1,384 in 1865.

Decrease in value of property stolen, and increase in recoveries.

50. The value of property stolen and recovered during the past two years is thus shown :—

YEARS.	STOLEN.	RECOVERED	PERCENTAGE RECOVERED
1864	4,02,520	55,679	13·8
1865	1,64,415	35,217	21 4

Synopsis of prosecution of cognizable offences.

51. The efficiency of the Police as regards detection and prosecution of offenders in cases *cognizable* by the police is shown in the following Statement :—

Total of cognizable offences admitted to have occurred in the year 1865	3,344
Ditto ditto prosecuted	2,436
or 72 8 per cent.	
Total persons apprehended in above cases, ...	4,212
Ditto discharged before trial	505
Ditto brought to trial	3,707
Ditto convicted	2,616
or 70 5 per cent convicted	

Persons committed to the Sessions, and those under trial on the 31st December 1865, have not been shown as convicted, but they are all included in those "brought to trial." Excluding them altogether, the proportion of persons convicted to those brought to trial in cognizable offences is 72· per cent.

Loss reported in Dacoities and Robberies.

52. The total loss reported by sufferers in dacoities, highway robberies, and robberies during 1865 was Rs. 14,618-8-0, viz. :—

	Rs.	A	P.
In 37 dacoities	11,115	2	3
,, 35 highway robberies ...	2,287	2	0
,, 27 other robberies	1,216	3	9
TOTAL	14,618	8	0

Convictions obtained in Dacoity and Robbery cases

53. Convictions were obtained in 7 dacoities, 10 highway robberies, and 4 robberies.

This result is far from good, but it may be said that the road dacoities and robberies perpetrated by Brinjarrahs (which form the largest portion of the crimes under discussion) are most difficult of detection, the robbers in many instances coming long distances to look out for plunder, and seldom (owing to the rocky nature of the soil in those parts where these crimes are most frequent) leaving any trace of the direction taken in their flight.

Trivial nature of most of the Dacoities and Highway Robberies.

54. Most of the dacoities and highway robberies were cases in which persons, returning from village bazaars with their week's supply of provisions, were stopped and plundered by small parties. It is probable, Captain Millett says, that in many instances the sufferers exaggerated

the number of persons by whom they were robbed, and that many of the offences recorded as dacoities might fairly have been treated as highway robberies only, but he has always impressed upon Police Officers the necessity of adhering, as a general rule, to the original statements of the complainants.

Dacoities and Highway Robberies committed in the first four months of the year were shown in the Report of 5th May 1865.

55. In the Report dated 5th May 1865, printed in last year's Administration Report, Major Younghusband gave an account of the dacoities and highway robberies committed during the first four months of the year, and Captain Millett has shown separately the offences of those kinds committed during the remaining eight months of the year. In the Report above alluded to, 14 dacoities and 13 highway robberies were shown as having occurred in the first four months. A few more cases had in reality occurred, of which intelligence had not been received at the time of submitting the Report. The necessary correction has been made; a column for robberies (not on the highway) has been added:—

Comparison as regards Dacoity and Robbery between the first four and the last eight months of 1865.

Period	Dacoities	Highway Robberies	Robberies	Total.
First 4 months of 1865 ..	17	15	14	46
Last 8 months of 1865	20	20	13	53
Total ...	37	35	27	99

Decrease of Dacoity and Robbery generally

From the above Comparative Statement, it will be seen that dacoity and robbery generally decreased during the last eight months of the year.

No Dacoity committed by Rahtores in Berar in 1865.

56. During the past year, no dacoity was committed by Rahtores, nor was any robbery traced to that class. Captain Millett attributes this result—

(1stly) to the partial introduction of the Arms Act into Berar, by which Rahtores are prevented from carrying arms without a license.

(2ndly) to the supervision exercised over this class by the Police.

Causes of the above result

(3rdly) to the severe sentences passed on some Rahtores who were in last year convicted of dacoity committed in 1864.

(4thly) to the loss of the monopoly which the Rahtores formerly enjoyed in escorting specie; and, lastly, to the difficulty now experienced by Meenas and other marauders from Hindoostan and Marwar in entering Berar to join the Rahtore band.

Notice of the Rahtore Inspector Chout Mull.

57. The following paras. are extracted from Captain Millett's Report :—

" Inspector Chout Mull (the former notorious Rahtore leader and " dacoit) has faithfully adhered to the engagements into which he entered " when appointed to the Police in the end of 1864, and has been of great " service in keeping me informed of the movements and intentions of the " men of his class. His enlistment on the side of order has had a great " effect in discouraging the Rahtores generally from crime.

The Railway renders it difficult to keep watch over the Rahtores moving about in these parts.

" Many Rahtores still remain in Berar and in the adjacent districts " of the Central Provinces, and the facilities afford- " ed by the Railway for rapid travelling, render it " more than ever difficult to keep a constant watch " on their movements.

Notice of the Rahtore leader Jewun Singh

" The Rahtore leader Jewun Singh (who was, after a year's incarce- " ration, released from the Akolah Jail at the close " of 1865), finding that he would not be permitted " to remain in Berar unwatched, went to Nagpore " with many of his followers Jewun Singh has recently been appointed " a Chief Constable in the Central Province Police.

And of other prominent Rahtores.

" Muhtah Jee, Shere Khan, and other Rahtores of note have also " left Berar for Nagpore, where they are doubtless " well looked after.

Report on the Brinjarrahs is not equally favorable.

" I wish it was in my power to report as " favorably on the improvement of our relations " with another prominent class of marauders, viz., " the Brinjarrahs.

Crime only partially checked amongst these people.

" Crime of all descriptions has certainly been to a great extent " checked amongst these people, but they still " commit highway robberies and petty road dacoi- " ties, and the proportion of cases detected is small.

Most troublesome in Woon District and southern border of Oomrawuttee District

" The Brinjarrahs have been most troublesome " in the Woon and on the southern border of the " Oomrawuttee District.

Patrolling has done somewhat, but all roads and hill tracks cannot be always kept in security.

" Something has been done towards protecting travellers in the " Woon District, by patrolling the roads most " traversed, but the distances between stations and " out-posts, the extent of the district generally, and " the numerical weakness of the Police, make it " impossible to maintain security on all the nu- " merous roads and hill tracks over the ghauts.

A want of supervision over Brinjarrahs in the Oomrawuttee District

" I am inclined to think that were the Police Officers in the " southern parts of the Oomrawuttee District to " keep a more constant and searching watch on " the movements of all Tandahs (and inmates) " in the neighbourhood of their stations, dacoities by Brinjarrahs

" should cease in that part of the country. I trust that improvement " will be effected in this respect.

Prevention of crime.

" The prevention of crime is effected generally by patrolling and by " a watchful supervision over the criminal classes " and persons of evil repute.

Measures in aid of the above.

" Neither of these measures are so fully carried out as they should " be, but an improvement (of which the result " may be traced in the Returns for the past " year) has certainly taken place in the prevention of all heinous " offences.

Patrolling.

" The Police Force is slowly, but gradually, approaching its sanctioned " strength, and I hope before long that a more " thorough system of patrolling will be practicable. " Camel messengers have been employed with good effect in patrolling a " few of the main roads on which the station and posts are too far apart " to admit of thorough patrolling by Foot Police.

Surveillance and prosecution of persons of bad character.

" Improvement has been effected in the surveillance of bad cha- " racters, and many persons of ill repute have " been prosecuted and placed either on security or " in jail.

Enforcement of the law against persons of bad character is a most valuable aid to the Police.

" The strict enforcement of Sections 295 and 296 of the Code of " Criminal Procedure is a most important aid to the " Police in the prevention of crime, and it is, I " think, to be regretted that on some occasions a " disinclination has been evinced to carry those Sec- " tions into effect in their integrity.

Beat system.

" It has not been attempted to introduce the system of daily beats " ordered in the Madras Police, but a system has " been organized which will, it is hoped, have the " effect of making the Constabulary well acquainted with all the villages " of their Station ranges, and of ensuring a more rapid dissemination of " information regarding the movements of criminal classes. The " villages of each Station range are divided into six beats, and two " Constables are told off to each beat. Station Officers are directed " to cause the villages in each beat to be frequently visited by the " Constables, and themselves and the Head Constables to make similar " visits. The Constables are periodically changed from one beat to " another, so that all may in time become acquainted with the entire " range of villages.

Constables placed to watch Rahtores and Brinjarrahs.

" The chief resorts of Rahtores in towns, and most of the Tandahs " of Brinjarrahs of bad repute, have each a Con- " stable attached to them, the duty of such Con- " stable being to give instant information to the " nearest Police Station of any suspicious movements of the persons " under his surveillance.

"Headmen of villages are expected to report to the nearest Police "Station once every week, on which occasion they "are required to give notice of any movements of "persons of suspicious character or appearance. "The occurrence of any crime in or near their villages must be at once "reported by the Patails.

Reports made by village Patails

"The village authorities like the rest of the population in Berar "appear to be apathetic and negligent with re- "gard to the repression and detection of offenders. "The following remarks taken from the Annual "Report of Lieutenant Lane, District Superintendent, Oomrawuttee, "seem to me applicable to by far the greater number of village author- "ities in this province —

Village authorities give little aid to the Police

"'Patails and Jaghas give but little assistance to the Police. Their "'object seems to be to do as little as they can without being punished "'for neglect of duty'

"An exception from the above observations may, I think, be made "in favor of the Patails of the Mehkur District, "many of whom have rendered good service in "arresting and tracing offenders.

The Mehkur District is a favorable exception

"In 1864 there were 50 cases of escape from custody In 1865 "there were 22 cases, of which a brief Statement "is subjoined —

Escape from custody

District	No of Cases	No of Persons escaped	No of Persons re-captured
Oomrawuttee	6	6	5
Akolah	8	*13	7
Woon .	7	9	6
Mehkur	1	1	1
Total	22	29	19

"Many of the escapes were caused by the absence of Lock-ups at "rural stations and posts

"The establishment of camel riders set on foot by Major Younghus- "band for the conveyance of merchants' coin, has "been and continues to be most successful It is "self-supporting, and during the past year safely "escorted Rs 38,04,139 without the loss of a "Rupee to remitters or consignees

Treasure remittance escort

More than thirty eight lak's carried during 1865 in safety

"The number of Officers and men dismissed for misconduct was very "large It was found indispensable to weed the "force of numbers of men who were not only "useless, but mischievous.

Members of the force dismissed for misconduct

* Six persons in one case

Many men discharged as physically unfit.

"It was also found necessary to get rid of "many persons as being physically unfitted for the "duties of Policemen.

Improvement in appearance and drill.

"Much improvement is observable in the general appearance of "the men, and progress has been made in drill and "in the use of the carbines recently issued.

Rest-houses provided for Police Officers

"Rest-houses for Police Officers on circuit have been commenced "in all the districts, and a few are already fit for "use. Several bungalows on the Jaulnah and "Nagpore Road (the use of which has been done "away with by the opening of the Railway to Budnaira) have also, "with the Resident's sanction, been made over to this Department as "Rest-houses.

Police buildings commenced in Oomrawuttee and Akolah Districts

"Buildings for the Reserve Police at Oomra-"wuttee and Akolah have been commenced, as "also station houses at a few places in those "districts.

The difficulty of getting recruits has diminished, but people of the country do not come forward.

"As the status of the force improves, the difficulty of finding "men to serve in it decreases, but it is still impos-"sible to get a fair proportion of the people of "the country to enter the force, and most of our "recruits are therefore Hindoostanees. Whilst "the remuneration of labor continues at the high "rates now obtaining in Berar, able-bodied men of the country will not "come forward for employment in a force in "which, with increased responsibility for their "actions and lower wages, they may be required to work every day "in the week

Reason of their holding back

Comparison between wages of laborers and pay of Constables

"Whilst field laborers receive 6 to 8 annas "per diem, the pay of a Constable is either 3½ or "4 annas according to his class."

Commendation of Police Officers.

58. "Captain Millett speaks in high terms of Lieutenants Hamilton and Lane, Messrs. Wright and Cumberlege also, in officiating charge of districts, have exerted themselves very creditably, and Mr. Bowen is working zealously and well.

59. Amongst the Inspectors he mentions as deserving credit—

Oomrawuttee	District ...	Doonia Singh	... 3rd	Class
Woon	ditto ...	Mr G Collins	.. 2nd	,,
Ditto		Mirza Soolliman Beg	3rd	,,
Mehkur	ditto ...	Ibrahim Khan (on duty at Oomrawuttee.)	. 2nd	,,
Ditto	ditto ...	Gobind Rao	.. 3rd	,,

60. From the above, it will be seen that Major Younghusband's place has been by no means unsatisfactorily filled by Captain Millett; I could not give him higher praise.

SECTION I.

PART IV —JAILS

Daily average of Prisoners.

61. The average number of prisoners during the year under report was 870, and the average cost of each prisoner was Rs. 86-14-5; Rs. 59-4-9 of this was for food and medicines, Rs. 3-3-4 for clothing, Rs. 20-11-2 for guards, and Rs 3-11-2 for contingencies, &c. The average cost of each prisoner in 1864 was Rs. 78-2-8, and the excess in the year under report is in a great measure owing to the continued high prices of grain and of cotton manufactures. I am unable to understand some of the differences in this Statement, and have called for explanation.

Conduct of Prisoners in Jails

62. The conduct of the prisoners in the different jails of the districts has been uniformly good.

Scurvy in Akolah Jail

63. Scurvy in a very severe form broke out among the prisoners in the new Akolah Jail in June 1865, and was not got rid of till October, up to which time 84 prisoners had died. The number of deaths in November and December was 12, and adding the 17 deaths in the first five months of the year, the mortality amounted to 27 per cent.

64. Every attention was paid to the food and clothing of the prisoners, but the season was an unhealthy one, and the people outside the jail died from scurvy as well as the prisoners inside it.

Attention paid to Food and Clothing of Prisoners

65. No epidemic broke out in the Oomrawuttee Jail, and the short term prisoners in the Yeotmal and Janiphul Jails were particularly healthy.

No epidemic in other Jails of the Districts

SECTION I.

PART V.—STATISTICS OF DISEASE

66. Cholera raged more fiercely in the year under report than in the two preceding ones The number of deaths reported was 16,771, while in 1864, 10,677, and in 1863, 1,162, persons were reported to have died of the disease The Oomrawuttee District has suffered from its effects in a greater degree than the others

Cholera and its effects in the Districts

67. It is a remarkable fact that the hot weather of 1866 has passed over without any outbreak of cholera. The Commissioner remarks that this immunity may be due to the fact that, in consequence of the completion of the Railway bridges, there were no longer large bodies of men gathered in one place Cholera, he observes, generally commenced in these gatherings and then spread over the country.

SECTION I.

PART VI—SUICIDES AND ACCIDENTAL DEATHS

68. One hundred and twenty-five persons were reported to have committed suicide in 1865. In 1864 there were 71 cases.

Suicides

69. Six hundred and eighty-nine cases of accidental deaths were reported in 1865, and of these, 57 were by wild beasts.

Accidental deaths

SECTION II.—REVENUE

PART I.—LAND TAX.

70. Cultivation continues steadily to increase. The area of cultivated land for 1865-66 was 4,376,110 acres; in 1864-65 it was 1,036,900; the total increase of land taken up for cultivation in four years has been 1,153,740 acres.

Increase of cultivation

71 The ascertained area of the four Districts is 17,334 square miles, viz.—

Area of the Province

Oomrawuttee	...	...	...	5,050 square miles
Akolah		...	...	3,396 ,,
Mehkur	...	...	...	3,013 ,,
Woon	...	...	...	5,875 ,,

Population.

72. The following is a rough estimate of the population of the four Districts :—

Oomrawuttee	519,082
Akolah	477,925
Mehkur	215,740
Woon	293,188
	1,535 935

Land Revenue demand

73. The Land Revenue demand for 1865-66, including Miscellaneous Land Revenue, was Rs 39,72,412-13-1, for the previous year, it was Rs 38,16,020-11, being an increase of Rs 1,56,422-2-1

	1864-65			1865-66		
	Rs	A	P	Rs	A.	P.
Oomrawuttee ...	12,41,919	15	6	13,01,162	9	3
Akolah ...	16,79,228	7	1	16,95,075	2	0
Mehkur ...	5,27,908	7	0	5,8[illegible],607	0	3
Woon ..	3,63,933	13	5	3,89,598	1	7
	38,16,020	11	0	39,72,412	13	1

Uncollected Balances

74 At the close of the year, the whole demand had been realized with the exception of Rs 7,221-0-7, viz —

	Rs	A	P.
Oomrawuttee	1,102	7	0
Akolah	1,073	15	1
Mehkur	132	12	0
Woon	4,611	11	6

Of the balance uncollected at the end of the year, about Rs 132 is said to be irrecoverable.

Uncollected Balance of previous year

75 The uncollected balance at the end of the previous year was Rs. 58,221-9-6.

Revenue collected with facility

76. The revenue this year has been collected with the greatest ease, which is a convincing proof of the continued prosperous condition of the ryots of Berar.

Fall of rain and harvest

77. The fall of rain was an average one, but it came irregularly. Rain ceased when it was most required for the Khurreef or wet crops, and there was a partial failure on that account. The Rubbee or dry crops were good on the whole.

Area of cultivated land

78. On a rough calculation, 68 per cent of the cultivated land is occupied by grain and garden plantation, 27 per cent. by cotton, and 5 per cent by oil seed, &c., showing a decrease of 3 per cent in cotton cultivation Within the last six months of the year, after the issue of the new Waste Land Rules, 360 wholly or partially waste villages were leased in Woon for periods varying from 10 to 30 years, at a rental of Rs 21,000 per annum. Of these, 19 were taken by Brinjarrah Naiks, and there is reason to believe the example will be followed by other headmen of the tribe whose occupation is being taken from them by roads and railways. Sketch boundary marks of these villages are being prepared by trained Putwarrees with Punjab Plane Tables.

79. The average prices of grain from 1850 to 1861, contrasted with the prices in 1864, 1865, and 1866, are shown below :—

Average prices of grain.

	Wheat.	Jowarry.	Gram.
Average from 1850 to 1861 ...	31	55⅓	41
Price in 1864	10	12	10
„ 1865	11	15	12
„ 1866	9	15	9

80. The continued high prices have produced no injurious effect upon the laboring classes of the population or upon domestic servants, as their wages have increased in proportion, but they have entailed much distress upon Government employés whose salaries are fixed, and who draw less than Rs. 300 a month.

Distress on Government employés owing to continued high prices of grain

81. Compensation on account of dearness of grain is given to all servants drawing less than Rs. 10 ; those whose salaries are above that amount receive no compensation.

Compensation to certain classes of servants on account of dearness of grain.

82. The average price of cotton from 1850 to 1861 was 11½ lbs. per Rupee. In 1864 it was a little less than 2 lbs. In April 1865, it was 6½, and in the same month of 1866 it was 2 lbs.

Average price of cotton.

83. The principal forests in Berar are those in Mailghaut in the Oomrawuttee District, and Pathroat in the Woon District, and these are strictly reserved for Government.

Forests

84. The sum of Rs. 21,309-8* has been obtained during the year from duty on teak from the Mailghaut Forests taken to the various markets for sale. No revenue has been derived from the Pathroat Forest.

Forest realization

SECTION II.

PART II—ABKARRY.

85. The demand on account of Abkarry, opium and other drugs was Rs. 6,89,821-3-6, being an increase of Rs. 2,53,180-13-6 upon the previous year.

Abkarry, &c

86. The outstanding balances at the end of the year amounted to Rs 13,100-4-9, viz.—

Outstanding balances of Abkarry

	Rs.	A	P.
Oomrawuttee	12,377	12	9
Akolah	5	8	0
Mehkur	0	0	0
Woon	717	0	0

Of the balance in the Oomrawuttee District, about Rs. 8,000 will be irrecoverable, owing to the failure of the Abkarry Contractor of the Mailghaut, who is a man without any substance or property, and without

* Of this Rs. 17,942-6 reached the Treasury during the year 1865-66.

any assets to make good the deficit. Over-speculation in the purchase of the contract is the cause of the Contractor's failure.

Recoverable balance of Abkarry

87. The balance, Rs. 5,100-4-9, will be recovered in 1866-67.

SECTION II.

PART III.—MISCELLANEOUS.

Salt

88. The collections from the Salt Contracts were Rs. 33,281. In the previous year, the sum of Rs. 38,736-8-6 was realized.

Other sources of Revenue under Finance.

89. The other sources of Government Revenue not being dependent on any fixed demand, are not noticed here.

SECTION II.

PART IV.—LOCAL FUNDS

Local Funds.

90 The revenue derived from the Local Funds is as follows :—

	Rs	A	P
Road Fund	65,907	7	3
Municipal Fund	1,37,723	3	8
Pound Fund	28,612	11	11
Ferry ,, ...	740	13	1
Railway Cotton Fee Fund	5,919	4	9
TOTAL ...	2,38,903	8	8

In 1864-65, the Local Fund Revenue amounted to Rs. 1,72,886-13-11.

Pound Fund receipts how used.

91. The receipts from the Pound Fund have been made available for improvements in the Civil Stations.

Municipal Fund contributions to Police

92. The Municipal Fund contributed Rs. 40,518-10-1 towards the support of the general Police; Rs. 600 for rent of Police Stations; Rs 1,250 for construction of Rest-houses for Police Officers, and Rs. 1,872-4 for repairing two Police Station Houses. The total expenditure for Police was Rs. 44,240-14-1.

Local Fund expenditure.

93. The whole expenditure from the Local Funds was as follows :—

	Rs	A.	P
Local Fund and Pound Fund Establishments...	19,020	5	3
Works and Conservancies	1,78,239	0	7
Contingencies	3,505	9	0
Refunds and feed of stray cattle	1,090	3	0
Contributions to Police	44,240	14	1
TOTAL ...	2,45,895	15	11

94. The Local Fund balances on hand at the end of the year, including balances of previous years, were as follows :—

*Local Fund balances.

	Rs	A.	P.
Road Fund	1,44,448	11	4
Municipal Fund	1,82,656	14	4
Pound Fund	29,341	15	0
Ferry ,, ...	237	0	0
Railway Cotton Fee Fund	5,159	15	5
TOTAL .	3,61,844	8	1

95. The village expenses, which are not included in the general revenue, amounted to Rs 6,29,651-14-4, viz.—

Village expenses

	Rs	A	P
Oomrawuttee	2,27,830	5	4
Akolah	2,44,100	0	0
Mehkur	85,005	0	0
Woon	72,716	9	0
TOTAL ..	6,29,651	14	4

being 15¾ per cent. on the gross revenue.

96. Two Officers have been employed in continuing the Enam enquiries.

Enam enquiries.

97. They investigated during the year 1,109 large, and 4,207 small, claims.

Number of Enam cases investigated.

SECTION III.

EDUCATION

98. Three English and three Mahratta schools were established within the year, viz., one English and one Native school at each of the Stations of Ellichpoor, Janiphul, and Yeotmal. There were five English and twenty-nine Mahratta schools in operation during the year, and there were 1,923 scholars attending the schools at the end of the year.

No of Schools and Scholars

	English Schools.	Mahratta Schools	No of Scholars.
Oomrawuttee District	2	9	556
Akolah ,, ...	1	11	639
Mehkur ,, ...	1	5	403
Woon ,, ...	1	4	325
	5	29	1,923

99. In the previous year, there were two English and twenty-six Mahratta schools and 1,360 scholars.

No of Schools and Scholars in the previous year

100. The Deputy Commissioners report that the progress of the scholars has been satisfactory. Some of the Mahratta School Masters have been able to teach the rudiments of English in addition to Mahratta.

Progress of Scholars.

Director of Public Instruction appointed.

101. A Director of Public Instruction has been recently appointed for Berar

Expenditure on Education.

102. The expenditure on account of Education amounted to Rs. 32,437-5-5.

Fees from Scholars

103. The receipts from Scholars' Fees were Rs. 3,620-4.

SECTION IV.

PART I—PUBLIC WORKS, MILITARY BUILDINGS.

Progress of Military works at Secunderabad

104. The re-arrangement of the Secunderabad Cantonment on the scheme proposed by me, and sanctioned generally by His Excellency, is progressing. The two European Infantry Regiments are in their place, and the buildings for their accommodation are almost complete. The additional barracks required to enable the whole of the Artillery, four Batteries, to be located together north of the Infantry Regiments, are being proceeded with.

Improvements effected in the Cantonments of the Contingent

105. Numerous improvements in the Cantonments of the Hyderabad Contingent have been effected at a cost of Rs. 41,488

CIVIL BUILDINGS

Progress of Civil buildings in Oomrawuttee

106. In the Oomrawuttee District, a Civil Hospital and Police Barrack at Head Quarters have been built, Police School-house and Store-rooms and two Police Station-houses commenced.

Buildings completed in the Woon District

107. In the Woon District lately established, the following buildings have been completed at a cost of Rs. 18,427 :—

1 —Deputy Commissioner's Cutcherry
2 —Tehsil Cutcherry
3 —Record and Treasury Room
4 —Lock-up for Prisoners
5 —Hospital
6 —School-room.
7.—Well.
8 — Do
9 — Do
10 —Temporary Store-room and Post Office

Progress of work in the Akolah District.

108. In the Akolah District, a Central Jail, to contain 500 prisoners, has been nearly completed. A Civil Hospital has been built. A Commissioner's Court House is far advanced. Police Barracks at Head Quarters and four Police Station-houses at important places are far advanced.

Buildings completed in the Mehkur District

109. In the Mehkur District, the following buildings have been completed at a cost of Rs. 14,301 :—

1 —Deputy Commissioner's Cutcherry
2.—Record-rooms
3 —Prisoners' waiting-room.
4.—Two Necessaries
5 —Jail
6.—Civil Dispensary

Public Works under Civil Officers.

110. The Public Works under the Civil Officers are those constructed from the Local Funds, viz.—

Moosafir Khana and Well at Budneira

A Moosafir Khana for Native Travellers at a cost of Rs 6,277-3 is under construction at the Railway Station of Budneira. A well for the use of travellers at that place was nearly completed, the sanctioned cost of which is Rs 1,684

Moosafir Khana, &c, at Moortezapoor & Chandoor

A Moosafir Khana at Moortezapoor, a Railway Station, was near completion, at the end of the year, at a cost of Rs. 3,500. A Travellers' bungalow and a Moosafir Khana have been sanctioned for Chandoor, another Railway Station, midway between Budneira and the Wurdah, and these buildings will be completed before the rail is opened to that place for travellers

Serais at Akolah, Saigaon, and Nandoora.

Three Serais have been sanctioned for the Railway Stations in the Akolah District, viz , at Akolah, Saigaon, and Nandoora, at a cost of Rs 7,703 each, and the buildings were all approaching completion.

School-houses at Oomrawuttee and Ellichpoor

New School-houses have been erected at Oomrawuttee and in the City of Ellichpoor, the former at a cost of Rs. 7,722, and the latter for Rs 3,760-4.

School houses at Mulkapoor and Nandoora

School-houses at Mulkapoor and Nandoora in the Akolah District were on the point of completion, the cost sanctioned for each of these buildings is Rs 3,400.

School-house at Akolah

The School-house at Akolah has been completed, and will be made use of in a short time, the sanctioned cost of this building is Rs. 8,985.

SECTION IV

PART II —ROADS

Progress and present state of roads

111. In Berar, the following roads have progressed, and their present state is as below described —

1st.—Oomrawuttee to Ellichpoor, 31 miles—1st Class.

Road from Oomrawuttee to Ellichpoor

Earth-work complete, except approaches to four bridges, metalling laid on 20 miles, 419 running feet of water-way completed, and 134 in progress at the close of the year.

Budget Grant of the year, Rs. 53,575—expended, Rs. 53,578.

2nd.—Budneira, Railway Station, by Oomrawuttee to Moresee, 38½ miles—1st Class.

Road from Budneira to Moresee.

Thirteen miles earth-work complete, and 1[illegible] miles metalled. Four hundred and twenty-four feet water-way finished, and 390 in progress.

Budget Grant of the year, Rs. 82,488—expended, Rs 81,553.

[illegible]rd.—Moortezapoor Railway Station, to Karinjah, 21 miles—1st Class.

Road from Moortezapoor to Karinjah

Earth-work and metalling nearly complete, and nine bridges and culverts remaining to complete the water-way

Budget Grant of the year, Rs 20,797—expended, Rs. 17,200.

4th—Nandora, Railway Station, to Khamgaon, 12 miles—1st Class.

Road from Nandoora to Khamgaon

Completed. Budget Grant for the year, Rs 64,906—expended, Rs 65,093. Khamgaon is the most important Cotton mart in Berar, except perhaps Oomrawuttee.

5th—Akolah, Railway Station, to Mallegaom, 37 miles—1st Class.

Road from Akolah to Mallegaom

This road is ready for metalling.

Budget Grant of the year, Rs. 39,820—expended, Rs. 40,143.

6th.—Akolah to Akote, 31 miles—1st Class.

Road from Akolah to Akote

This road is now complete in all respects as sanctioned, except between the Poorna and Shanoor rivers, where a fair weather road only has been made

Budget Grant of the year, Rs. 20,000—expended Rs. 20,150.

The above the most important roads

112. These are the most important six of the 13 roads running at right angles to the railway intersecting the valley of Berar, which it is proposed to complete as first class roads, and thus render them available for traffic at all seasons of the year.

Repairs done to fair weather roads

113. Repairs have been effected to the usual extent on fair weather roads, and the line from Budneira to the Wurdah has been improved so as to facilitate the transit of the mails from Bombay to Calcutta.

Nandegaom, Railway Station, to Aurungabad, 12 miles in Hyderabad, 20 in Khandeish—1st Class.

Road from Nandegaom to Aurungabad

114. Fast approaching completion in every respect.

Budget Grant of the year, Rs. 36,000—expended, Rs. 25,127.

Aurungabad to Toka, 26 miles.

Road from Aurungabad to Toka.

115 Six thousand six hundred and thirty-eight Rupees expended in repairing the serious damage caused by last monsoon on this important road connecting Aurungabad with Ahmednuggur and Poonah.

BY SUPERINTENDENT OF ROADS, NIZAM'S DOMINIONS

Works executed from the Secunderabad Abkarry Fund

116. The following are the principal works executed by the Superintendent of Roads, during the year 1865-66 from that portion of the Secunderabad Abkarry Fund at the disposal of the Resident for such purposes —

1st —The Nagpore Road.

Progress made on this Road.

This work was commenced in March 1864, and 140 miles of the road were opened out last year At a later period, the Nirmul Ghât, the chief obstruction on this line, was rendered practicable, and the road up to the 160th mile cleared and made easy for cart traffic.

Expenditure on ditto to present time

The cost up to the present time is Government Rs. 89,981-4-2, or Rs 562-6 per mile. For the present, this work is suspended, and the funds made available for constructing

2nd.—The Hoomnabad and Goolburgah Road.

Road from Hoomnabad to Goolburgah

Hoomnabad is 97 miles west of Hyderabad on the Sholapore Road. Goolburgah is about 40 miles south-west of Hoomnabad The object in making this portion of road is to connect Hyderabad with Goolburgah, which will be the nearest Railway Station to Hyderabad on the great Bombay and Madras Railway Thirteen miles of the road have been entrenched and cleared to such an extent as to allow carts an easy transit. It is at present intended only as a fair weather road, and will be executed at a cost of about Rs 450 per mile. Bridging and metalling will be done when funds are available.

Detail of expenditure by the Superintendent of Roads, Nizam's Dominions

117. The expenditure in this department during the year (paid out of the Abkarry Revenue of Secunderabad) is as follows —

	Rs	A.	P
On account of Establishment	6,082	15	8
Road Maintenance (Masulipatam Road portion, 20 miles, Kurnool Road 123 miles, Nagpoor road, 120 miles, Sholapoor Road, 170 miles; and Residency Roads, 7 miles)	16,936	14	10
Making Nagpoor Road	20,943	14	9
Ditto Residency Roads	873	2	6
Ditto Goolburgah and Hoomnabad Road ...	857	11	6
Repair to Kurnool Road	1,650	0	1
TOTAL GOVT. Rs. ...	47,344	11	4

SECTION IV.

PART III.—RAILWAY

G. I P Railway

118. The G. I. P. Railway was opened to Budneira (the Station for the Town of Oomrawuttee and five miles south of it) on the 18th December 1865. The Contractor's train runs beyond the Wurdah, the boundary between Berar and the Central Provinces. The line will be open to the Wurdah about the end of July 1866.

Check on Station Masters

119 Mr Cordery's plan of stacking and registering cotton in yards set apart for the purpose near Railway Stations has been very successful in checking the unfairness with which carriage was allotted by the Station Masters

SECTION V

FINANCE

Revenue realizations

120 The Government Revenue realized during the year is contrasted below with that collected in 1864-65 :—

	1864-65			1865-66		
	Rs	A	P	Rs	As	P
Land Revenue	37,01,376	8	3	39,35,192	0	10
Forest ...	0	0	0	17,912	6	0
Abkarry .	6,10,017	10	2	7,53,009	6	9
TOTAL	13,11,391	2	5	47,06,113	13	7
Salt	11,613	0	0	37,813	0	0
Stamps ...	1,67,253	7	6	2,37,672	11	9
Law and Justice ..	26,735	11	5	30,691	12	0
Police ..	30,536	7	9	38,157	0	1
Public Works	13,153	1	3	19,708	3	8
Miscellaneous ..	15,621	13	11	18,125	7	4
Interest	501	11	3	1,252	5	9
TOTAL	2,95,718	11	1	3,83,750	8	7
GRAND TOTAL	46,40,112	13	6	50,90,194	6	2

Increase over previous year

121. The whole Government revenue from all sources realized within the year amounted to Rs 50,90,194-6-2, being an increase of Rs 4,50,081-8-6 over the revenue of the previous year, and Rs 8,88,599-3-4 more than in 1863-64.

Value of Territory

122. The estimated revenue of the Territory in 1860-61 was 32 lakhs. The increase in five years amounts to nearly 19 lakhs.

Disbursements.

123. The disbursements of the year were as follows :—

	1864-65			1865-66		
	Rs	A	P	Rs	A	P.
Refunds	12,128	1	11	8,922	14	1
Charges against Income .	3,67,132	4	2	5,58,003	14	4
Allowances and Assignments under Treaties and Engagements	29,121	7	9	12,876	0	4
Miscellaneous	16,036	12	0	24,266	10	11
Carried forward ...	4,24,418	9	10	6,01,069	7	8

	Rs	A.	P	Rs.	A	P
Brought over ...	4,24,418	9	10	6,04,069	7	8
Civil Service.						
Civil Buildings .. .	4,020	10	0	0	0	0
Salaries and Expenses of Public Departments	9,391	11	9	10,011	12	7
Law and Justice	71,420	8	11	93,838	7	6
Police	2,64,777	12	11	3,80,878	7	6
Education . ..	25,687	7	6	32,437	5	5
Superannuation and Charitable Allowances	1,816	2	3	759	7	8
Miscellaneous	8,968	7	2	10,155	13	8
TOTAL .	8,10,501	6	4	11,32,150	14	0

Cause of increased expenditure.

124 The disbursements of 1864-65 represent the expenditure of eleven months only of that year, the pay for March 1865 was delayed till the contingent bills for that month were submitted for audit, and the charges against income were therefore much less than they would otherwise have been. In the year under review, the salaries of 13, and contingencies of 14 or 15 months, are shown, and to these causes are mainly attributed the increased expenditure over the previous year.

Cost of Civil Administration

125. Deducting the expenditure on account of the Revenue Survey, Rs. 1,22,178-9-8, which is an exceptional charge, refunds of revenue, Rs 8,922-14-1, and the charitable allowances, Rs 12,876-0-4, the cost of the Civil Administration is left, and it amounts to Rs. 9,88,181-5-11, or 19¼ per cent of the revenue

Balance available for Treaty purposes

126. After all expenditure, Rs. 39,58,043-8-2 are left for the Public Works, the pay of the contingent, and other charges provided for by the Treaty.

SECTION VI.

POLITICAL

Free trade system in thorough operation in the Nizam's Dominions

127. The free trade system (within His Highness' Dominions) has been thoroughly in operation There has been scarcely a single complaint of attempted imposition. In consequence of this system and the total abolition of nerikhs, the City and Cantonments have been abundantly supplied with grain without any motion whatever on the part of Government to assist, whereas in former days, under a different system, the whole influence of the Minister, brought to bear upon the bunyas, and his own importations were insufficient to keep up a supply, or prevent disturbances arising from scarcity The prices of grain have been unprecedently high as per margin, and in many places in the districts they are even higher. Formerly, the Resident used to receive daily batches of applications from the grain-dealers of Cantonments for orders from the Minister to pass their grain. Not a single application has been made this year.

Price of following Grains in December 1865 –

	Rs	A	P
Wheat per maund of 10 seers, 1st sort	7	0	0
Rice do	5	0	3
Jowaree do	2	10	8
Gram do	4	2	8

128. The new arrangements for the levy of duty on imports and exports from and to our territories have also been satisfactorily carried out.

Arrangements for levy of duty satisfactory

129. The districts have been revised, and a sufficient number of Officers appointed to each, and, on the whole, the Minister has been successful, I think, in his selection of Officers for the new appointments thus created.

Revision of Districts

130. The City Adawluts have been remodelled and rules prescribed for their guidance, but these Courts do not work satisfactorily, and the Minister contemplates further measures. The difficulty of getting men, combining integrity with efficiency, is very great.

Reform in the City Adawlut

131. The Police Administration has been improved, and the robberies of Mail Carts have decreased, and there have been none of the great treasure dacoities which were not of unfrequent occurrence before. Some Arabs who had been employed in villages belonging to Scindia, and which have always been permitted to enjoy exemption from responsibility to the Nizam's Officers, collected a number of fellow-ruffians in Aurungabad with the view of frightening the local Governor into compliance with their demands. The head of them agreed to abide by the decision of a Court composed of two Officers, one named by the Minister, and one by me. Their decision was entirely against him, and he quietly proceeded to Hyderabad, whither the Minister summoned him to answer for his misconduct, and his followers dispersed. There has been no other attempt at disturbance of any kind whatever.

Police Administration of the Nizam's Dominions

132. The earth-work of the railway from Sholapore to Koolburgah is being rapidly proceeded with, and the land for the next division and for the bridge-works across the Tumbaddra has been made over.

Progress of Railway in the Nizam's Territory

133. A Statement of the works performed by the Magistrate and Judge of Small Cause Court in the Secunderabad Cantonments is given in the Appendices Nos. XIII and XIV.

Small Cause Court of the Cantonment of Secunderabad

SECTION VII.

MISCELLANEOUS—PART I—SURVEY.

134. The operations of the survey close yearly on the 31st October.

Operations of the Revenue Survey

135. In 1864-65, 462,675 acres were measured, and 633,156, classed. The settlement was introduced into 117 villages containing 167,786 cultivated acres, and 16,427 culturable. The jumma of the year preceding settlement was Rs. 1,20,734, the settlement jumma, Rs. 1,17,553, or annas 14-1 per acre.

Progress of ditto

136. The cost of the Survey Department was Rs 1,08,715, being a considerable increase on the preceding years, due to stronger establishments, and the abolition of the system of forcing work from the villagers

Cost of Revenue Survey

137 The total results of the survey since its commencement in Berar in 1860-61 are as follows —

Total results of the Survey

	Measured	Classed	Total Cost	Yearly increase of Revenue.
Acres	2,662,186	1,668,765	3,73,110	1,13,207

SECTION VII

PART II —TOPOGRAPHICAL SURVEY

138. The Topographical survey operations in Berar were completed this year.

Operations completed

139 The Officer in charge, Hyderabad Topographical Survey, was directed to fix the boundary lines between the different districts, and this work was completed within the year.

District boundary lines

SECTION VII

PART III —AGRICULTURE

140 Experiments were made with American Cotton seed acclimated at Dharwar.

Experiments with American Cotton seeds

141 Three plots of 10 acres each were selected in the Talooks of Akolah, Akote, and Mulcapoor for experimental sowings Fifty seers of seed from Dharwar Cotton, grown in Berar were sown at the first two named places, and a similar quantity of seed received from Dharwar in the last-named place.

Extent of experiment

142 The Dharwar seed is said to have produced the finest staple, and the yield of cotton has been three times greater than that from the Berar Cotton.

Yield of Dharwar Cotton seed

143 The experiments with the Dharwar seed in Ellichpoor and Oomrawuttee have been unsuccessful. The seed reached Oomrawuttee too late in the season The Berar Cotton had a considerable start of the Dharwar seed, the former was well up before the latter could even be sown.

Failure of Dharwar Cotton seed

144 Large numbers of trees have been planted at the two old Civil Stations, viz, Oomrawuttee and Akolah, and attention is being paid to the preservation of the Babool plantations throughout the districts.

Arboriculture

SECTION VII.

PART IV.—CONSERVANCY.

Conservancy Establishments.

145. Conservancy establishments have been sanctioned for several large towns in the districts. Carts and sweepers have been maintained for keeping them clean, and Tehsildars have been entrusted with funds for improving Tehsil towns and cleaning Village roads in their talooks.

CONCLUSION

Prosperity of the people and credit to Officers.

146. On the whole, the year has been one of some progress and great prosperity to the people, and credit is due to the Officers of all classes for their exertions.

HYDERABAD RESIDENCY,
The 7th August 1866.

I have the honor to be,
SIR,
Your most obedient Servant,
G. U. YULE,
Resident.

APPENDICES.

APPENDIX No. II

JUDICIAL.—CIVIL JUSTICE.
